## VIKING GAS WILL SOLVE POWER PROBLEM FOR EDMONTON

### Live W. es of Edmonton Ent se Over Gas Find; Mc lamara is Applauded

W. R. Martin, of International Supply Company, Explains Value of Flow to City and What Will Have to be Done—This Well Could Supply 39,000 Horsepower and Heat 4,700 Houses in Coldest Weather—Approximately 2,215,000 Cubic Feet Contained—Should Drill Four Other Wells to Establish Area of Gas.

Gas and gas alone was the subject that occupied the attention of those who attended the weekly mid-day luncheon of the Industrial association on Thursday, the huge strike at Viking and its importance to the city of Edmonton being discussed from various angles by numerous speakers.

The 104 citizens who had the courage and enterprise to throw their money into the well at Viking now begin to reap their reward, declared Secretary Milne, who read an interesting paper on the strike in which he gave the inside history of the whole affair. Furthermore the knockers who tried to throw cold water on the scheme had been silenced and what was more important still the city of Edmonton would derive a benefit which could not be gauged. To W. J. McNamara and ex-Asst. Mayor East too much credit could not be given for their share in the venture, and their vindication was complete.

**Difficulties are Enumerated.**

Mr. Milne dwelt on the difficulties which had hampered the promoters in their endeavor to secure for the city the great advantage of natural gas. When the work was started only \$10,000 was on hand and it was exhausted before the well had gone down 200 feet; 4,000 postcards, soliciting subscriptions were sent out, but instead of yielding the required capital to go on with the undertaking they brought in nothing but abuse and insults.

The secretary stated that to W. R. Martin, whose company had the task of drilling the well, a great deal of credit was due. Although he was supposed from time to time to be paid he never passed them and in every way was generous and helpful. A short time ago when the project was far from optimistic it was decided to drill for only three days longer and an agreement to that effect was made with Mr. Martin. The three days passed without any success, in speak of, but instead of stopping the work Mr. Martin went on working with no prospect of pay until the strike was made.

**Martin Claims No Credit.**

Mr. Martin, when called upon, declined any credit for the undertaking. The question was simply a battle between optimism in the project, confident that sooner or later credit would be made, for the benefit of those present. Mr. Martin gave some particulars regarding the well. It will be a year at least, he said, before the citizens of Edmonton begin to reap the advantages of the gas. Although the strike made it one which has hardly been surpassed anywhere in the world, it would hardly justify the commencement of work on the construction of pipe lines from the field immediately. At least four wells should be first drilled, a mile or so apart, in order to get some idea of the size of the field. When this was done and tests satisfactory work should be started in laying gas mains.

**Cost of Well \$25,000.**

The cost of each well, he said, would be in the neighborhood of \$25,000, and the cost of building mains from the field from the city would come to about \$10,000 per mile.

**Enormous Flow is Found.**

Referring to the flow of the well Mr. Martin stated that it had a flow of 3,215,000 cubic feet daily. In heat-

**REPORTED GENERAL VON KLUCK DIED TEN DAYS AGO IN NAMUR HOSPITAL**  
Paris, Nov. 5.—The correspondent of the *Revue* at Namur says he has, from a source which he cannot designate, the news of the death of General Von Kluck, ten days ago in a hospital at Namur, where he was treated for a wound in the head. The news of the alleged death, the correspondent says, has been carefully concealed in Belgium and Germany.

### REPUBLICANS AND DEMOCRATS BOTH WELL SATISFIED

Administration Leaders Pleased at Having Majority in Both Houses.

Washington, Nov. 5.—Democratic administration leaders today claimed a "substantial majority" in the house, and continued control of the senate as a result of the elections for the next congress. On returns which were not yet complete the democrats asserted that their majority in the senate had been increased from 18 to 15. The house returns indicated that the present overwhelming majority of 140 had dwindled to about 135.

With this the democratic leaders professed themselves satisfied, declaring that it was the greatest majority "yet returned by any party in an off year following a tariff revision."

The democrats also asserted that the returns showed that the progressive party had practically disappeared and that therefore the democratic victory was a triumph over a reunited republican party.

**Republicans are Jubilant**

Republicans, however, were jubilant over the result. They asserted that the progressives were returning to the fold and that by 1918 the way would be cleared for a sweeping republican victory. They were prepared to welcome back "Chief Joe" Cannon and many of his erstwhile followers who had fought their way back to seats in the house after their defeat in 1912. Three breaks in the solid south, which democracy has held for so many years, were pointed out as indications of democratic weakness.

Republicans elected from Maryland and North Carolina and a progressive seated in the third Louisiana district gave aid and comfort to the opponents of the administration.

**Reorganization in Congress**

The next congress will see a general reorganization of the house. Speaker Clark, who was returned by a healthy majority from his district, will undoubtedly be the democratic choice for speaker. But the election of Representative Underwood to the senate from Alabama will precipitate a contest for the democratic leadership, in which Representative Kitchin of North Carolina, ranking member of the ways and means committee, will take the leading part. The reduced majority of

### GERMAN CRUISER STRIKES TEUTON MINE AND SINKS

York, Largest Vessel So Far Lost by Fatherland, Goes Down in Jade Bay.

**MORE THAN HALF CREW SAVED, DESPITE FOG**  
Despatch from Wilhelmstadt States GKfrsruhe Wishes to Coal There.

London, Nov. 5.—The German cruiser *York* has struck a mine in Jade Bay and is sunk. The information regarding the loss of the *York* reached London in an Amsterdam despatch to the *Reuter* Telegram company. It stated that an official despatch from Berlin said that the *York*, on the forenoon of November 4, struck a mine chain blocking the entrance to Jade Bay and sank.

Later reports declare that 382 men, more than half the crew, had already been saved, but that the rescue work was hampered by a thick fog.

The German armored cruiser *York* was built in 1905, a vessel of 5,250 tons carrying a crew of 528 men, thus the largest warship lost so far by the German navy. In fact she is the most modern of the armored ships yet built since the war was declared, being superior to the *Memphis*, the most valuable British casualty both in point of modernity and armament, though smaller than the *Good Hope*, which may yet be saved. The *York* had a speed of 21 knots and was armed with four 8.2 inch guns, ten 5.5, fourteen 4.1, and three 1.4.

*Jade*, or *Jade Bay*, is a deep bay, and estuary of the North Sea, belonging to Oldenburg, Germany. It is twenty square miles in extent with a fairway to the open sea a mile and a half wide. On the west side of the entrance to the bay in the Prussian naval port of Wilhelmshaven, so that without a doubt the *York* was sunk by one of Germany's own mines.

**Wants to Get Coal**

Willemstadt, Nov. 5.—It is rumored that the German cruiser *Karlsruhe* has sent a wireless despatch asking permission to take on coal here, but that the colonial government has refused to grant permission. An order prohibits the coaling of the belligerent war vessels here and coal exportation is forbidden. Merchant steamers are only allowed enough coal to fill their bunkers.

The democrats will also necessitate many changes in the organization of powerful house committees. In the senate even a slight increase in the present narrow democratic majority will strengthen the administration, which during the present congress has at times been somewhat embarrassed by the slender margin of control.

**NOVA SCOTIA TO SEND SECOND SHIP OF MERCY TO THE BELGIANS SOON**  
Halifax, Nov. 5.—Nova Scotia's second ship of mercy, the *Princess Murray*, will sail within the next two weeks. Last night a cable from John Howard, agent for Nova Scotia in London, stated that the British admiralty had placed the *Princess Murray*, now in Halifax harbor, at the disposal of the Nova Scotia government.

### RUSSIANS CAPTURE INDUSTRIAL TOWNS THROUGH POLAND

Germans and Austrians Look Alike to Cossacks in Eastern Theater.

**POPULATION ENTHUSED OVER THE VICTORIES**  
Suspended Siege of Przemyśl Due to Fear of Cholera Epidemic There.

Petrograd, Nov. 5.—The new positions of the German army front along the river Warthe, over 75 miles west of the Vistula river, which they reached at the time of attempted attack on Warsaw, indicate the tremendous retreat of General Von Hindenburg's entire army in Poland during the past two weeks.

This retreat is regarded as especially important since such noted industrial centers as Lodz, Piotrkow, Radom and Kielce are recaptured by the Russians. The strategic point at Sandomir, which is at the junction of the San and Vistula rivers, also being retaken.

There is particular elation over Russia's advance since there now seems little possibility of the Germans gaining the lost territory, the condition of the roads being very bad. The improvement of the roads is more than counterbalanced by the enormous Russian reinforcements since received. While the population of that district a month ago were vacillating in their sympathies, all are now enthusiastically with the victor.

On the east Prussian frontier the Germans have met with no success in assuming the aggressive and at some points the Russians have even crossed into German territory. In this region, however, the German retreat was not marked by serious losses. Some of the military experts here explain that the passing of the Germans from the offensive to the defensive is due to the reported withdrawal of seven army corps from Poland to the western theater of war.

While the retreat of the Austrians operating in south Poland and Galicia is not so marked as that of the Germans the official report here indicates that they have moved perceptibly back.

### Britain Hears Good News From Armies and Expects More From Her Fleet

Believed Situation in Flanders will Remain Unchanged Until one Side or the Other Starts off on New Tangent—Germans May Make Second Attempt to Reach French Coast—Turk's Entrance into Figi Will Widen Area of Possible Naval Battles and Makes Sea Battles More Probable in Near Future.

**HEAVY FIRING OFF YORKSHIRE COAST.**  
London, Nov. 5.—The British mine sweeper, *Mary* was sunk by a mine in the North sea today. Six of the crew of 14 were rescued. The survivors, who were landed at Lowestoft, reported heavy gun firing off the Yorkshire coast this afternoon.

London, Nov. 5.—Although England continued today to wait with some uneasiness of some news of certain of her warships in the Pacific, which were engaged last Sunday with German fleet off the coast of Chile, this anxiety has been in a measure counterbalanced by the apparently favorable situation of the allies' armies both in the eastern and western arenas.

The first German rush for the French coast having been checked, the news of the next few days will determine the truth or falsity of predictions as to the seriousness of the renewed German attempt to get to the coast by a more southerly route. There was nothing in the reports from west Flanders during the forenoon to indicate the trend of new German attack, although Ypres continued to figure in the despatches as the military key against which the Germans proposed to deliver their blows.

Opinion here is divided as to whether this fresh attempt to open a way to the channel will rival in intensity the struggle along the Yser. Some British optimists hold that the apparent exhaustion of the Germans is an indication that they are really planning to fall back as they did before Paris, on the entrenchments they have been so carefully preparing everywhere back of their lines. If this does occur it will mean another period of siege warfare along the entire frontier in Belgium and France, a condition which probably will persist until one side or the other starts off on a new tangent, as did the Germans in their coast attempt, thus creating some other acute area of hostilities.

Meanwhile the indications are that naval operations will become more prominent, particularly a Turkish entrance into the scene widens the scope of such warfare.

### INDUSTRIAL COMMISSIONER SAYS GAS WILL HELP HIM LOCATE MANUFACTURERS

George M. Hall, Edmonton's industrial commissioner received the glad news of the gas strike at Viking at Saskatoon, and immediately wired back the following telegram:

"Good news, congratulate Edmonton and the industrial association on the gas discovery. Will be a great help to me on my trip. Will give cheap power and great variety of industries to Edmonton."

Mr. Hall has gone to the east and will be away for about three weeks, his trip being of a business nature. While away he will address the British Empire association in Chicago, the Canadian club in Boston and a number of boards of trade.

Mr. Hall will also interview a number of manufacturers, in an effort to persuade them to locate factories in Edmonton.

The suspended siege of Przemyśl, which is still acclaimed by the Austrians, is explained by the Russians as due to the fear of exposing their army to the cholera epidemic prevalent there.

### FOOT AND MOUTH DISEASE SPREADS IN UNITED STATES

Quarantine Imposed on Shipments Out of Wisconsin and Ohio by Government.

**CHICAGO STOCK YARDS TO BE CLOSED 9 DAYS**

Six Hundred Cattle Slaughtered in Windy City and Sixty in Evansville.

Washington, Nov. 5.—Definite discovery of the foot and mouth disease in Ohio and Wisconsin caused the department of agriculture today to impose a quarantine against the shipment of livestock out of those states.

The infected cattle in Ohio were found in the Toledo yards, at Fosteria, Meine and Norwalk, in Wisconsin federal inspectors traced the diseased cattle to Evansville, where 60 animals were ordered killed.

**Chicago to Close Saturday**

Chicago, Nov. 5.—The closing of the union stock yards will last nine days beginning next Saturday it was announced today.

The foot and mouth disease has broken out in the luxurious stalls outside the stock yards where 1,100 fancy cattle are gathered from Canada and 25 states of the union.

Fifteen cases were found among the fancy cattle today, according to E. J. Chanley, chairman of the Illinois Livestock commission. Infection of the others is feared.

Six hundred common cattle marked for sacrifice were slain inside the yards this morning and laborers at work on the long trenches in which the carcasses will be covered with quick lime and buried, the 15 bovine associates with their plebeian brethren.

**Disease at Clyde, N. Y.**

Washington, D.C., Nov. 5.—Cattle infected with the foot and mouth disease were today reported to the department of agriculture to have been discovered at Clyde, N. Y., making, with Buffalo and Seneca Falls, three centers of the disease in New York state. Six more communities were reported afterward in Lancaster county.

St. Joseph, Mo., Nov. 5.—There was a large increase in the receipts of hogs at St. Joseph stock yards today, and prices were 25 cents higher, due, dealers said, to the quarantine at Chicago. The effect on the cattle and sheep receipts was less noticeable, although sheep prices also were up 25 cents.

**Two Aviators are Injured**

San Diego, Cal., Nov. 5.—Captain L. E. Doosler, Jr., United States aviator corps, was perhaps fatally injured, and Glenn Martin, another aviator, was seriously hurt today in a fall of about 40 feet. The accident occurred near the army aviation camp on North Island, across the bay from San Diego.

The two aviators were in Martin's machine.

### Portable Wireless Apparatus Can Receive From 1250 Miles Distant

Milan, Nov. 5.—Prof. Domenico Argentieri, the Abruzzi priest, whose recent claim to having invented a small, portable, wireless telegraph apparatus, capable of receiving messages from high powered stations at even a distance of 1,250 miles, raised a storm of controversy in Italy, yesterday demonstrated triumphantly the genuineness of his invention.

At the British embassy in Rome, in the presence of a large gathering of public men and scientific experts, including Sir Rennel Rodd, he gave a series of astonishing experiments without hobbins, receiving poles, or other stock in trade connected with radio-telegraphy. A simple switch, attached by an ordinary domestic electric cord to his pocket apparatus, was what he used for interrupting wireless communications transmitted by the London foreign office. He also picked up others from Paris and from war vessels out at sea. Some of the messages were in cipher and their accuracy has been rigidly verified.

French, Russian and Japanese military and naval attaches also witnessed the experiments.

**Houses Are Burned.**

Pat Smith, Ark., Nov. 5.—Reports were received at the United States consular office here today that a number of houses at Prairie Creek were burned today. The burned buildings are said to include the big boarding house which had been the scene of numerous disturbances.

**Women's Suffrage Ahead.**

Idaho, Mont., Nov. 5.—Scattered rumors from 20 precincts of the State indicate that the women's suffrage amendment will be carried by a large margin at 44 noon today is ahead by 100 votes. All the big cities have been won.

This scene is on the street in Antwerp known as the Rue de Peuple, and is typical of many scenes in this city, which only a month ago held 400,000 people. The Germans fired 4,000 shells into the city during the bombardment.

# **GIRLS! LOTS OF BEAUTIFUL HAIR NO DANDRUFF—25 CENT DANDERINE**

Hair coming out? If dry, thin, faded, bring back its color and lustre.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp. Danderine immediately doubles the beauty of your hair. No difference

how cold, faded, brittle and scraggy. Just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance, an incomparable lustre, softness and luxuriance. Get a 25-cent bottle of Danderine from any drug store or toilet counter, and prove that what it is as pretty and soft as any—that it has been neglected or injured by careless treatment—thats all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

## **What the Theater Press Agents Say**

**"PEG OF MY HEART AT EMPIRE TONIGHT"**  
"Peg of My Heart" is with us and tonight a capacity audience will doubtless greet her when she makes her debut before the Edmonton public.  
The play is very richly termed the supreme successes, earning that title by its continuous run of two years in New York city.  
Manager Moroco has provided all the details of success in staging the play. It is artistically set forth, and splendidly acted by a cast of special talents for the different characters of the story including Marion Denton, as Peg.  
The tremendous play appeals to every class of theater-goer as no other story in recent years has done, and, despite the European crisis, is defying tremendous audiences both at home and abroad, for the time being people forget to thing of depression and revel in the simplicity and untrammelledness of "Peg," as portrayed by Marion Denton, whose natural Irish wit causes the spectators to thoroughly enter into the plot as it unfolds itself.  
A short synopsis would not be out of place and will give the reader an

excellent idea of the play itself.  
Peg is the daughter of an impoverished Irishman and an aristocratic Englishman, who family disowned her as a result of this marriage. Following her mother's death Peg is reared by her father. As she comes into the story one senses the unusual methods pursued by Peg's father in her upbringing but you like him for it. A wealthy uncle seeking to undo the wrongs of the mother provides for Peg's future. It is arranged that she shall visit her aunt at the family home of the Chichesters in England and the stern old lady tries to teach Peg the properties and make a lady of her. The free untrammelled life with her father has left its mark on Peg and she has absorbed some of his humorous but revolutionary views. It is therefore not the easiest task imaginable to adjust Peg to the narrow conventions of English society life. Her one friend is Sir Gerald, who knows only Peg as plain Jerry. When she falls in love with habits cannot be unlearned in a day. Peg's principal burden is her keen viewpoint inherited from a line of Irish ancestors. A sense of humor is a treacherous ally, slow to conventions, made for fun and the greatest spontaneity of the story and all terminates happily in a measure to increase the swiftness and surety of the play's movements.

## **THOUGHT IT WAS SUICIDE.**

A prominent merchant was discovered a few days ago brandishing a knife at midnight. His wife called for assistance, but found her husband was only pouring his corn. For not to risk blood poisoning use Putnam's Corn Extractor, 25c at all dealers.

# **RAILWAY EXPECTS BELGIAN SETTLERS**

Busy Winter for Workers on G.T.P. Building Terminals Points.

## **CONTEMPLATE USING OIL**

Rich Territory and Mild Climate Characterize Large New Country.

Montreal, Nov. 5.—D. E. Gallows, assistant to the president, states that, while no details have yet come to hand, it is true that the Grand Trunk Pacific railway has let contracts to the value of \$300,000 for terminals in British Columbia.

This construction work will take care of a large number of mechanics and laborers during the winter months and will be an important factor in improving the labor situation along the line of the Grand Trunk Pacific in British Columbia. The contract work comprising the erection of divisional point facilities at Sudbuck, Smithers, Prince George and Pouce Coupe, include round houses, machine shops and other railway buildings. Preparations are also being made for oil storage buildings along the line, as it is understood that oil burning locomotives are to be used in the fast transcontinental services of the company.

It is into this country between Prince George and Pouce Coupe that the company hopes to introduce a large number of Belgian settlers. Between the two points of the new terminal point and Prince George, is the Nechaco valley, through which the railway runs, and which averages about 15 miles in width. There are still good lands open for pre-emption from six to ten miles back from the railway, and this valley is proving suitable for raising hay, grain vegetables and fruit, and is also a good dairy country. Adjacent to the Nechaco valley is the Stuart Lake country, where there is also considerable good agricultural lands for pre-emption.

These regions can be considered practically inexhaustible in their productiveness for agricultural pursuits. The timber growth is comparatively light, although present and sufficient natural meadows and grazing are to be had for stock purposes without clearing. The growth of feed material in the most nutritious kind for fodder is everywhere particularly noticeable where the time is not so thick to prevent any growth. The climate is mild. Settlement is not very extensive yet, although the extensive use of transportation facilities up to the last month, there has been no opportunity to get building material in to start small towns around the railway stations.

## **LADY IN WALES WISHES TO LEARN WHEREABOUTS OF HER DAUGHTER HERE**

Friends in the old country are very anxious to learn the whereabouts of Miss Maggie Driscoll, who left Cardiff, Wales, seven or eight years ago, for Edmonton. The young woman has not been heard of in her former home, but her mother has been taken very ill and wishes to hear about her daughter. Any information will be gladly received by the Daily Capital, or, better still, C.addy, 66 Stoughton street, Grangetown, Cardiff, South Wales, England.

## **MOTORMAN SAYS HE CAN MAKE STREET RAILWAY PAY IF GIVEN CHANCE**

At the regular weekly last evening of the Edmonton property owners' association, Christopher Dunwell, motorman, told those present that he could put the street railway on a paying basis, if made superintendent and given a free hand. He did not think the high capitalization would put a kink in the profits he would make for the city, but simply wished to be given a chance.

His address started discussion as to the causes of the large deficits always made by the department—over-capitalization, mis-management, high fares, transfers, unnecessary expenditures and the usual list of "causes."

A critic believed that it would pay until put under the sole control of an independent commission of business men, the commission being elected by the ratepayers.

The contract recently in sight is supposed to be Delevant's. But don't worry about it! Milton says that a comet "from his horrid hair shakes pestilence and war."

## **Use it every day LISTERINE**

LISTERINE is a daily necessity, with six careens, whose total capitalization is \$250,000; then Calgary, with \$137,000; followed by Fraser Creek, with one "oil" company capitalized at \$125,000. The other two companies are at Vermilion and Camrose.

## **ALBERTA'S GROWTH REFLECTED IN NEW COMPANIES FORMED**

Five Organized in Edmonton and Five in Calgary Last Half of October.

While no million-dollar or ten-million-dollar concerns were organized in Alberta during the last two months in October, there were several of an apparently substantial nature with comparatively small capital, indicating that that province is gradually entering into an era of real development as opposed to mere speculation.

A townsman company, however, with headquarters in Medicine Hat, among those organized during the above-named period, as announced in the latest Alberta Gazette, and its capital being \$200,000, it puts the Gas City at the head of the list of places in the province for new companies, judged by total authorized capitalization.

Next to Medicine Hat comes Edmonton, with six careens, whose total capitalization is \$250,000; then Calgary, with \$137,000; followed by Fraser Creek, with one "oil" company capitalized at \$125,000. The other two companies are at Vermilion and Camrose.

# **Invest Your Money in The ALBERTA FARM and COLONIZATION Co., Ltd.**

A Colonization Scheme to Settle Alberta Improved Farms, and having the strongest endorsement of both members of Provincial and Dominion Governments.

A limited number of shares will be offered to the Public of Alberta; the balance is being subscribed by Old Country capitalists.

MAKE RESERVATIONS at ONCE.

A Good Profit is Assured in addition to the 7% on Preferred Shares.  
THE SAFEST AND SANEST INVESTMENT ON THE MARKET TODAY.

LUCIEN BOUDREAU, M.P.P., Edmonton, Alberta.

## **Back to the Land**

The agricultural tide is on the turn even now. The war is responsible for this great back to the land movement, and it's a safe prediction that Alberta will experience in the spring the greatest land rush the province has ever seen. Farmers are assured big prices for many years on cattle, grain and produce to supply an ever-increasing demand.

The Result Will Be a Great Reaction in Farm Lands, and Increased Values.

There never was a greater opportunity to buy Farm Lands at rock bottom prices than now. The company intend to secure all they can get if the price is right, and will assist the incoming tide of settlers to locate on their holdings, which will be all improved and close to railroad facilities, thereby assuring the settler a crop the first year and a market for all he can raise.

The Alberta Farm and Colonization Co., Ltd., will assist the settler not only by selling him an Improved Farm for a small cash payment and the balance in crop payments, but will start him off right with first grade cattle and a team of horses from the company's own Stock Farm.

THE CRYING NEED OF ALBERTA IS—GET PEOPLE ON THE LAND"

The Alberta Farm and Colonization Co., Ltd., are working with that end in view.  
Help Your Province by Investing in this Company. You could not put your capital to a better cause or be assured of a safer investment.

WRITE FOR PROSPECTUS AT ONCE.

Phone, Wire or Mail for Reservations as only a limited amount of stock will be offered the public of Alberta.

A few live wire agents are needed throughout the Province to represent the Company in their respective districts. Liberal commission. Write for particulars.

## **HAS WATCHED GROWTH OF THE NEW HIGHWAY FROM ITS INCEPTION**

In connection with the inauguration of the through passenger service on the Grand Trunk Pacific railway, it is interesting to note the unique experience Superintendent H. McCall of Edmonton has had in connection with the building and operation of this new national highway.

He was associated with the first and last of the passenger service on the line from Portage La Prairie westward in their various stages to Edmonton, where he was transferred to Edmonton from Edmonton and Jasper he has handled all traffic east and west for the past three years, and last month had the honor of supervising on his division the first through express trains between Edmonton and Prince Rupert and of accompanying the same through his bailiwick. In addition to supervising the operation of the line west of Edmonton to Prince George, Mr. McCall has also had charge of track-laying over 400 miles of the mountain section. Tribute to the excellence of the work is borne by the solid, smooth and trim roadbed finished under his supervision. Mr. McCall has put in over nine years of strenuous work on the Grand Trunk Pacific, always leading and directing with the spirit of one who takes a pride and pleasure in his task.

## **BRONCHITIS**

If Neglected Will Surely Turn Into PNEUMONIA.

Bronchitis comes from a neglected cold. It starts with a short, painful, dry cough, accompanied with rapid breathing and a feeling of oppression or tightness through the chest. At first the expectoration is of a light color, but soon becomes copious and of purulent character.

You have, no doubt, wakened up in the morning and have had to cough half a dozen times before you could raise the phlegm from your bronchial tubes, and when you do succeed in doing so you find that it is of a yellowish or greenish color, and you get some relief right away. When this happens to you, you may rest assured that you have a touch of bronchitis, and if not cured immediately it will sooner or later develop into pneumonia or some other serious trouble.

Cure the cold, and thereby prevent bronchitis and pneumonia taking a hold on your system.

This can be quickly done by the use of

**DR. WOOD'S NORWAY PINE SYRUP.**  
Mrs. Rebecca Howe, Malone Bay, N.S., writes: "My little boy, aged six, was always troubled with bronchitis, and when he had whooping cough he was worse. Doctors advised me to use Dr. Wood's Norway Pine Syrup. It gave him instant relief, and positively cured him."  
Price, 25c and 50c.

## THE PRETENSIONS OF DR. HARRY SMITH.

Through the discovery of gas in the Viking well those who have been so factiously active in their efforts to unseat Mayor McNamara are now shown up in their true light, and the underlying motive in invoking the processes of the courts to charge against him an unessential technicality is made so glaringly plain that it is scarcely possible that his tormentors—most especially Dr. Harry Smith—will ever be able to get a hearing in public affairs in the city of Edmonton again.

A brief review of the gas situation is necessary. Mr. McNamara came into public affairs in the city of Edmonton at a time when a company was seeking a franchise to supply gas. The company's intentions may have been honorable enough from the corporation point of view, and the company may have been seeking a deal in which there was nothing criminal. But there is a wide difference of opinion upon the question of franchises and Mayor McNamara is among those who believe that it is not in the interests of the city to award a franchise to any company, and this opinion he most freely expressed upon the public platform in language with a sting in it from which some of his antagonists have not recovered and never will. Having been elected upon this platform, he proceeded at once to provide a means through which the citizens of Edmonton might, in public spirit, undertake the gamble of prospecting for gas. This plan, was the creation of Mayor McNamara and Mr. W. J. Magrath, president of the Ad Club, was to raise a fund by popular subscription through the agency of the Ad Club, to use this money to put down a well at a point located by the city. The well was to be sunk upon the agreement with the city that if gas in commercial quantities were discovered the subscribers would get their money back from the city. Failing the discovery of gas the city was to pay nothing and the subscribers were to lose every dollar they had put in. Mr. McNamara and Mr. Magrath, placed their names at the head of the list subscribing \$3,000 each, of which \$1,000 each was paid upon the spot in cash. This unique appeal to the public spirit of the citizens money was subscribed on the same basis and sufficient cash was in hand to sink the well. A majority of members of the council became subscribers, among whom was Alderman East.

From that moment forward Mayor McNamara's life in the city council was made as burdensome as a certain section of the city council could well make it. Leading this section was Dr. Harry Smith, who aspires to be the next mayor of Edmonton. As the well continued downward toward the point where it was estimated by the experts gas should be discovered, the activities of the wing led by Dr. Smith increased. Added to these activities in the council, an action was taken in the courts to disqualify Mayor McNamara upon the technicality that while holding office he had entered into a contract with the city. This case was pressed with increasing insistence just correspondingly as the well went down. There was no question about the existence of the technicality and upon this the court was compelled to give judgment, disqualifying Mayor McNamara for having done one of the most worthy and public-spirited acts which has been to the credit of any public man in Edmonton so far. But in delivering judgment Justice Ives made it absolutely plain in what contempt he held those who had been instrumental in taking advantage of such a technicality to encompass the disqualification of the mayor. In fact, the justice went so far as to state that the mayor's action was exactly the action that electors had a right to expect from a public-spirited holder of municipal office, and he expressed his opinion of the appellant by qualifying him as a Shylock.

The judgment terminating the disqualification proceedings came at a crucial moment in the gas-wells history. The money gathered by subscription had been exhausted. Times had changed and very few citizens were what might be called flush with money. The drilling contractors, themselves out of funds, were absolutely confident that they were contiguous to a great gas supply and were offering to accept any kind of arrangement by which they could drive the well through the strata which they believed separated them from the gas. There was a proposal on the tapis to have the city make a grant of \$5,000 for the purpose of completing the well and only by the elimination of Mayor McNamara and by the incidents which followed it was this proposal sidetracked. For the past few days it has seemed from day to day that operations must cease, but public-spirited citizens have been putting up in small amounts the money necessary to permit the drilling contractors to meet their wage bills, which was all they asked to continue the work. At the latter end of last week it seemed that the work must stop, when Mr. Magrath and Alderman James East came forward with a further subscription of \$150 each and this is the money on which the contractors were working at the time when gas was struck. Had the discovery not been made this week it appeared morally certain that the antagonists of municipal gas must have won out and the subscribers must have lost their money, while Mayor McNamara, in the meantime, had lost his seat, into which Dr. Harry Smith, leader of the gas antagonists had climbed without the warrant of an election, and was brazenly announcing his intention to run for mayor at the time when the discovery of gas which frustrated all his maladroit intentions against the city was made.

It now transpires, as a sort of final denouement, that not only Dr. Harry Smith have the first opportunity to become a subscriber to the gas fund, which he rejected, but that it was he who went on the bond guaranteeing the costs of the suit for the disqualification of Mayor McNamara.

With this record Dr. Harry Smith now proposes to come before the citizens of Edmonton and ask them to entrust him with the direction of the city's affairs in 1915. Unless the citizens are altogether bereft of reason he will be relegated forever to the oblivion to which his public actions so richly entitle him.

## How To Get Rid of a Bad Cough

Do It Quickly, Cheap and Easily Made

If you have a bad cough or chest cold which refuses to yield to ordinary remedies, get out from under it by using a Pinex (50 cents worth), pour into a 16-ounce bottle and fill the bottle with water. Granulated sugar syrup. Start taking a teaspoonful every four hours. In 24 hours your cough will be conquered or very nearly so. Even whooping cough is quickly relieved in this way.

The above mixture makes 16 ounces—a family supply—the finest cough syrup that money could buy—at a cost of only 14 cents. Easily prepared in 5 minutes. Full directions with Pinex.

The Pinex and Sugar Syrup preparation takes right hold of a cough in a way that is really remarkable. It also quickly kills the inflamed membrane which accompanies a painful cough, and stops the formation of phlegm in the throat and chest, thus ending the terrible persistent loose cough. Excellent for bronchitis, influenza, whooping cough, keeps perfectly and tastes good—children like it.

Pinex is a special and highly concentrated compound of genuine Norway Spruce, rich in vitamin A, which is so healing to the membrane.

For a full description, ask your druggist for "24 ounces of Pinex," do not accept anything less.

For absolute satisfaction, or money promptly refunded, give with this preparation, The Pinex Co., Toronto, Ont.

Prof. Alexander and C. S. Stevens Others in Accord

—More Meetings.

"The new charter upon which the city council is now working, which people will vote on December 14, is without doubt, the most modern and the most practical and the best piece of municipal machinery that has been yet devised."

At the election commission government charter public meeting held at the Victoria high school last evening, W. J. McNamara, Edmonton's unelected chief executive, declared the new elective commission government charter, to represent the most modern and the very best thought of the North American continent in respect to municipal administration. He proceeded to provide his assertion by explaining the manner in which this charter was prepared. The preparation of the charter was marked by four distinct features.

**First.**—The new city charter contains the best thought and the best ideas of the recognized leading municipal scholars on this continent. The committee, by direct correspondence, and by study of the past writings and utterances of the recognized municipal scholars, secured the best judgment in respect to the theoretical, or scientific principles of administration. The new charter is scientifically and theoretically correct in every detail.

**Second.**—by direct correspondence with a large number of civic officials in many of the leading cities throughout the country under elective commission government, the committee got the very best and the very latest thought and advice of the men actually engaged in operating such municipal machinery in order to ascertain the practicality thereof, viewed from the inside.

**Third.**—by direct correspondence with many hundreds of leading citizens in all walks of life in all elective commission government cities of over 10,000 population, the committee got the very best thought of the leading business, professional and labor men, their judgment being based from an outside viewpoint.

**Fourth.**—With all this counsel obtainable, and with advice and guidance from the elective commission government charter committees took the combined best thought secured from all these sources reflected, and drafted an elective commission government charter for Edmonton, according to the dictates of their very best judgment and most sober deliberation. On this committee there were represented men of every walk of life, and of every section of the city. On the fruit of these efforts to draft for Edmonton a model city charter, the people will vote on December 14.

Other speakers presenting the charter last evening were Prof. W. H. Alexander, C. S. Stevens and ex-Alderman James East.

Alderman J. A. Clarke took the platform briefly to state that, although there were some minor details of the new city charter with which he did not wholly agree, and although at present

Old-Time Remedy  
 Purify your blood by taking Hood's Sarsaparilla. This medicine has been and still is the people's medicine because of its reliable character and its wonderful success in the treatment of the common diseases and ailments—eczema, catarrh, rheumatism, dyspepsia, loss of appetite, tired feeling, general debility.

Hood's Sarsaparilla has been tested forty years. Get it today.

## CANUCK SOLDIERS WRITING LETTERS WEARILY ALL TIME

Principal Things Wanted are Pens, Paper and Ink—Some Directed to U.S.A.

MORE RAIN IN 2 WEEKS THAN HERE IN 6 MONTHS

Horses Taken From Dominion Seen Lighter and Quicker Than English Breeds.

New York, Nov. 5.—Most of the London correspondents of the United States newspapers paid their first visit to Salisbury Plains, attracted by the presence of the British army, to inspect the Canadian army.

Salisbury plain is exactly like any country you see in Canada," said an officer. "It is typical of Alberta or Saskatchewan."

The officer had just arrived at the camp, but the men who have been there a fortnight said that there was one great difference between England and Canada, and they complained loudly about it as they sat around a stove in the big green Young Men's Christian association tent at Pond Farm, where more than 10,000 are camped.

"We have seen more rain in the last two weeks than we see in Canada in six months and that's a great difference," they said. "It is 20 miles from the old English town of Salisbury to the camp. The last ten miles are over roads which are one continuous mudslide. The big motor transport wagons have churned the tracks to sludge, muddling a foot deep."

Are Great Letter Writers

Twelve thousand letters a day are sent out of camp, directed to Canada. The principal things wanted by the Canadians are pens and paper with which to write home. They are the greatest letter writers of the British army. The little tables are crowded with men who are forever directing envelopes with "Canada" written at the bottom, though some put "U. S. A." there instead. The men sometimes demand things which the canteen is apparently unable to supply—tobacco powder and paste for instance. Thousands of tin have been sold in the market and the little shops have been established. Prices are kept very low and the Canadians are surprised at what they can buy for a shilling. They are very fond of chocolate, when they ask for chewing gum they do not get it, for there is none to be had.

Cough Mixtures Uncommon They buy a great deal of brass polish for the buttons on their uniforms, and as many of them have colds, owing to the wet, they are forever asking for patent cough mixtures common in Canada, but whose very names are unknown in England.

There are only two women in the whole camp of 25,000. The use of the shop in the green marquee at Pond Farm and serve out chocolates, soups, sandwiches and other refreshments. The men have bought many little stoves to warm themselves with, and they are very scarce.

Rowdies Almost Unknown Visitors to the camp have been struck by two things, besides the continuous mud. The first is the good class of men represented in the Canadian contingent, and the second is the respectability and social behavior and their pleasant and cheerful manners. Rowdies appear almost unknown, and they are neither cocksure or unduly meek. Respecting themselves, they look for respect from others, and they get it.

The second point noted is on the quality of the horses they have brought over. They are different from the English bred, seeming lighter and quicker on their feet.

There is a library in camp for the use of which a fee of three pence is charged. The stories of W. W. Jacobs are in greatest demand. "The Soldier's Book of Nuisery Camp Songs" price one penny, being sold by thousands.

FIFTEEN MEN WAIT AT PRINCE ALBERT LAND OFFICE TO HOMESTEAD

Prince Albert, Nov. 5.—About fifteen men are standing in line outside the office of the Dominion lands office in this city and will stay there until Friday morning, when, at 9 o'clock, land in the Laird, Merrell and Wild Rose districts will be thrown open for homestead entry. The land in the Laird district, lying section 13, township 44, range 4, west of the third meridian, is the big prize, as there are 12 or 14 men after the four quarters, and, according to one of those now waiting, about 20 more will be in before Friday after the four quarters sections. The section in the Tiefenried tract, about seven miles north of Laird. Two men have been waiting nearly two weeks to get on this land.

Just as a reminder of carelessness, the health officer at Manhattan, Kan., is preparing to have unsanitary back yards in that city photographed and placed in a sort of rogues' gallery.

Yours meetings he had presented opposition to the new charter, because of such minor details, that he wished to take advantage of the opportunity to state that he intended to support the elective commission government from this date on, because it was founded upon the soundest principles. It was theoretically and practically correct in every respect, and any minor details with which he might disagree were inconsequential and could readily be remedied at any time if the majority of the people of the city considered such remedy expedient.

Meetings of the charter committee will be held at Riverdale, near the school at the Donald Ross school tonight. Tomorrow evening the committee will present the charter at the Norwood Boulevard school.

## BEIJING MANUFACTURER MAY RE-ESTABLISH HIS FACTORY IN DOMINION

London, Nov. 5.—Agent General Pelletier in London for the province of Quebec said yesterday that six offers have reached him by cable of a free site for a factory if the province of Quebec as the result of an agency despatch concerning the proposal of a Belgian manufacturer, who had been driven from Ghent, to establish a factory in Quebec province, if sufficient inducement should be held out to him. Mr. Pelletier stated that the offer, together with one that had been received previously, would be handed to the gentleman interested, who contemplates taking a trip to Canada soon, although his factory for cotton goods was completely destroyed by the enemy.

Vigorous Bombardment by Japs Tokio, Nov. 5.—It is officially announced that the bombardment of Tientsin continues vigorously. The Germans on the night of November 2 made a counter-attack, which for a time hindered operations. The attacking forces, according to the statement, are now gradually drawing in. Shells are falling in the streets of the town and the power house has been destroyed. On November 4 the Japanese right captured some small forts and an officer and 25 soldiers were killed and the Bismarck barracks.

## NOSTRILS AND HEAD Y MY CATARRH BALM FROM COLD? TR STOPPED UP

Instantly Clears Air Passages; You Breathe Freely; Dull Headaches Gones; Nasty Catarrhal Discharge Stops.

Try "Ely's Cream Balm."

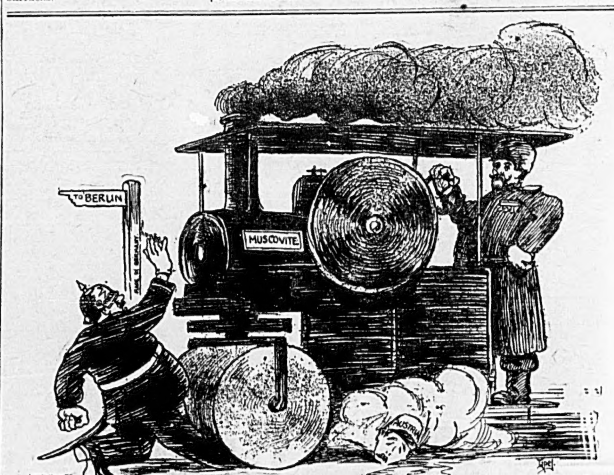

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely, dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Ely's Cream Balm."

Greases to Remain Neutral

London, Nov. 5.—A despatch from Sofia to the Times says: "The Bulgarian government has received formal assurances that the Greek government is determined to maintain neutrality and has refrained from ordering a mobilization. The Serbian minister here announces that Servia will offer Bulgaria her moral support should Turkey attack Bulgaria. No friendly advance has been received from Roumania."

A meeting of the Chartered Accountants' Students' association will be held at the McTavish Business College, Jasper east, on Friday evening at 8 o'clock. The meeting will be addressed by C. L. Richardson, C.A., who will lecture on "Municipal Accounting." All members are requested to attend and a cordial invitation is extended to persons interested.

The Chinese pupil reciting his lesson turns his back on the tutor.

## The Boys of Alberta Are Now Likely Near the Fighting Line

They will soon be in the thick of it and will give such a good account of themselves that every Albertan and every Canadian should watch them as closely as possible.

They are making history this minute. Any day the crucial battle of the greatest war of all time may be decided.

The easiest way to have a comprehensive idea of what is going on, besides reading the news despatches, is by the Daily Capital's war atlas, which has maps of all the countries concerned and of the districts where the battles are now going on, besides a veritable mine of information and pictures of the great holocaust, including the fleets and airships of the powers.

The subscription price of the Daily Capital, payable in advance, to city subscribers is \$2.00 for six months or \$4.00 a year delivered at your door; to country subscribers by mail \$1.50 for six months or \$3.00 per year.

For every six-months subscription received while the supply of atlases lasts we will give one atlas free.

One who is now a subscriber may get one of these atlases by forwarding the price for a renewal for six months after the date his present subscription is paid to.

Better still, if a subscriber whose subscription is paid induces a friend to subscribe for six months to the Daily Capital we will forward each an atlas free.

USE THE COUPON.

Capital Printing and Publishing Co., Ltd., Second Street, Edmonton, Alberta.

### WANTS ATHLETES TO FORM A HOME DEFENSE GUARD

Suggestion Emanates From  
"Chuck" Skene, Former  
Champion Walker.

Toronto, Nov. 5.—Captain J. C. Skene, of the Beach detachment of the home guards, is to the front with a suggestion that Toronto athletes form a company of home guards and to this end will co-operate with other well known athletes and call a meeting at the Central Y. M. C. A. some night this week. Capt. Skene is better known to athletes as "Chuck" Skene, who was for several years Canada's champion walker and was also a good half miler.

England has her football and athletic regiments at the front, and I can see no reason why Toronto should not at least have a company of athletes in the home guards," remarked Skene this morning. "Anyhow, I intend to try and start the ball a-rolling by getting together a company of athletes."

**Much Food is Required**  
London, Nov. 5.—Herbert C. Hoover, chairman of the American-Belgian relief committee, yesterday received a statement from the American and effect that the minimum monthly requirements for the Belgian population will be 46,000 tons of grain, 15,000 tons of maize and 3,000 tons of rice and peas.

### WOLGAST THINKS WELSH SHOULD BE ABLE TO OUT- POINT WHITE IN FIGHT

Chicago, Nov. 5.—Ad Wolgast, who lost to Champion Freddie Welsh in New York in eight rounds Monday night, when his right arm was broken, immediately gave out a first hand opinion on the Welsh-White fight at Milwaukee. Wolgast should be well qualified to hand out the dope and here it is: "There's only one chance for White to win over Welsh, and that is by a knockout, but that chance, I think, is slim. Both Welsh and White are straight-up fighters, which should give the champion a big advantage, as Welsh outclasses the Chicago boy in left jabbing. Welsh should be able to pile up enough points to win."

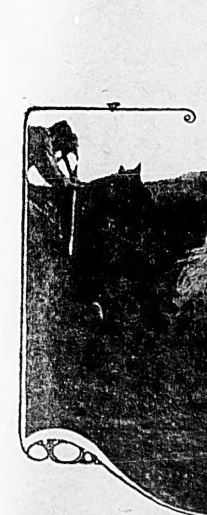

**Stallings' Strategy**  
By Hugh S. Fallentin  
One of the most striking instances of confidence ever given in baseball was shown by George Stallings, manager of the Braves, on the morning of the fourth game of the world's series. The Boston club had made reservations for forty persons from Boston to Philadelphia. On the morning of the fourth game Stallings called up the railroad office and cancelled the reservations, announcing that there would not be any necessity of the club going to Philadelphia. When the news of this act reached the Braves they were like a lot of wild men, shouting with joy and bubbling over with enthusiasm.

Whether Stallings did it for effect, to keep the confidence of his men at the boiling point, or whether he did it in earnest he alone knows.

**Hon. F. W. Lambton Killed**  
London, Nov. 5.—Hon. Frederick William Lambton, brother of the 22nd of Durham, and popular in jockey club circles is reported among the killed in action.

### PORTUGAL'S CRACK CAVALRY EAGER FOR WAR.

If Portugal goes to war on the side of the Allies some of the best cavalrymen of Europe will be seen in action. The mountainous country of the Peninsula has developed some clever horsemen, a detachment of which is seen in the picture. The men are shown going up the high embankment at the side of a road.

### HEADACHY, BILIOUS, STOMACH SOUR? REGULATE YOUR BOWELS! 10 CENTS

You're bilious! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes hurt, your skin is yellow with dark rings under your eyes, your lips are parched. No wonder your eyes feel ugly, mean and ill-tempered. Your system is full of bile and constipated waste not properly passed off and what you need is a "cleaning up" inside. Don't continue being a bilious, constipated nuisance to yourself and those who love you.

## NO ALUM

**Kidwell Won**  
In the English billiard competition Kidwell and Galey played an exciting game. Kidwell winning out by the narrow margin of eight points. Both players were in fine form and took advantage of every possible shot, the game being the most interesting in the competition up to date. The finish was very exciting. With eight to go, Galey missed an easy hazard and Kidwell getting the cue ball clicked off a brilliant run of 28, leaving his opponent for the high run of the game.

**Will Seek an Armistice.**  
Amsterdam (via London), Nov. 5.—A despatch from Berlin to the Handelsblat says: "According to the reports, a council of the gentlemen of the socialist party has asked the president of Switzerland to take the initiative in making diplomatic representations jointly with the governments of other neutral states to secure an armistice."

**Y.M.C.A. and Church Clubs**  
Billiard tables are now as important part of equipment in all Y.M.C.A.'s and thousands of church clubs. The first essential of the game is temperance. To play the game well, one must be in the very best of condition, physically and mentally. Everyone who plays billiards tries to improve his game, but can only do so by living an absolutely clean life.

"I have never tasted any kind of intoxicating drink nor have I ever smoked."

Hope is the ideal type of billiard player, and much of his success, apart from his natural ability, must be attributed to his physical condition and charming personality.

In meeting, Imman he is against a man of typical English billiard tenacity. Imman is never beaten until the last point has been scored.

Imman is very anxious to demonstrate that he can win the Canadian match, and by sufficient points to overcome the lead Hope obtained in the two previous matches in Chicago and New York.

Hope is just as eager to win, so as to convince the billiard players of Canada that the American billiard game is the best, although the most difficult.

From the advance sale of reserved seats it is apparent that the match will be taxed to its capacity, and there is so much depending on the issue that interest among billiard players is at fever heat.

Both men have their supporters and it will not be until the last game is played on Saturday of next week that either side will be satisfied as to which is the best billiard player.

**Johnson-Willard Match for Heavy Title at Juarz**  
Black Champion and Kansas Cowboy Will Fight it Out in Mexico.

**NEW YORK SPORTSMEN TO STAGE BIG CONTEST**  
Problem of Landing Negro in Ring Without Touching U. S. Difficult.

Chicago, Nov. 5.—The next battle for the world's heavyweight championship will take place within the gates of the race track at Juarz, Mexico. The principals will be Jack Johnson, the negro who holds the title, and Jess Willard, the Kansas cowboy, who has long time has been considered the best of the "white hopes."

## HOPPE STARTED CAREER ON OLD RICKETY TABLE

Billiard Expert Who Plays Inman in Edmonton Next Week Learned Game in his Father's Shop.

It was on the banks of the Hudson that Hoppe was born, and it was on an old rickety pocket table in his father's billiard shop where he began to learn the science that has brought him fame and fortune. At the age of seven years young Hoppe was a star, so it is little wonder that he is called "Willie" today instead of Bill.

"Yes, it's a name of nerves," said Hoppe, "and much more exhausting than it looks."

"Would you believe it when I tell you that I do road work when preparing for my engagements? Well, I do. It's just as necessary to keep in good condition for a billiard match as it is for a boxer to be in shape for a hard, 20-round bout."

"Yes," continued Willie, "if your physical condition is good, your nerve is bound to be good also. That is why I do three or four miles a day, any way, except during three months in the summer, when I expect to improve with age, but the improvement is so slow at my stage of development that the change is hardly noticeable."

"And your nerves?"  
"Oh, they're all right. But it is watching an opponent roll up a score that strains your nerves more than your own play."

"Billiard stars develop from long practice and a foundation of natural ability in billiards. However, some are fewer because the game is more difficult and more exacting."

"It is clean living that makes the star, more certainly than in any other branch of sport."

Hope is the ideal type of billiard player, and much of his success, apart from his natural ability, must be attributed to his physical condition and charming personality.

In meeting, Imman he is against a man of typical English billiard tenacity. Imman is never beaten until the last point has been scored.

Imman is very anxious to demonstrate that he can win the Canadian match, and by sufficient points to overcome the lead Hope obtained in the two previous matches in Chicago and New York.

Hope is just as eager to win, so as to convince the billiard players of Canada that the American billiard game is the best, although the most difficult.

From the advance sale of reserved seats it is apparent that the match will be taxed to its capacity, and there is so much depending on the issue that interest among billiard players is at fever heat.

Both men have their supporters and it will not be until the last game is played on Saturday of next week that either side will be satisfied as to which is the best billiard player.

 TITLE; TO START AT 3 P. M.

**No Let-up in Practice is Allowed—Same Line-up That Beat Civics Possible Exception of Left Wing Position—Believed That One Team Will More Fittingly Represent Edmonton than "All-Stars," as at First Suggested—Big Crowd Should Be at Diamond Park Saturday.**

The rah rah boy would be about the same line-up as that which took the city championship from the Civics, with the possible exception of McDonald, left wing, who was out of the last game on account of injuries, but who may be back Saturday. However, James, who subbed, plays a game good enough to stop any worry because of weakness at that point.

When this year's city league was organized it was intended to have an all-star Edmonton aggregation represent this city against Calgary for the Alberta title, but the two teams here so evenly matched that it was afterwards agreed that whichever won should play its own team against the fourth city. It is probably just as well, if not better, that this was done, as students of the game believe that

whatever advantage might have been gained by having an "all-star" team would be more than lost by the fact that the team-work of the winners, Varsity, would have been broken up.

Given any kind of decent weather, there should be a bumper crowd out to see the game Saturday, as it will be the only occasion this season on which an outside team will be seen in action here.

Turkey hesitated to plunge into the European war—she felt possibly that she could not preserve the pace that is set by the Christian nations.

Chicago is this year expending \$6,850,000 on street improvements and repairs.

## ART ROSS SEVERS CONNECTION WITH OLD HOCKEY TEAM

Following wordy Quarrel Wanderers Lose Star Puck Chaser.

Montreal, Nov. 5.—The resignation of Art Ross as vice-president of the Wanderer Hockey club was accepted yesterday at a meeting of the directors. Ross resigned from the club following a breach with the management, it being alleged that he was influencing certain of the players from signing.

Ross is not in the city and it is rumored that he is in New York in the interests of the new professional league.

The breach between Ross and President Lichtenhein occurred early in the season when it was reported that the famous player intended going to

Nationals were endeavoring to form. It was alleged that other players both on Wanderers and Canadiens, were being held back from signing with

**GRAND TRUNK PACIFIC  
TAKES THREE STRAIGHT  
GAMES FROM C. P. R.**

In the Railroad Bowling league series which includes the three transcontinental lines, the C.P.R., C.N.R. and G.T.P. games will get under way next Tuesday night. Each team will play four series with each other club, the schedule winding up about the first week in December. Last evening at the Olympic alleys the G.T.P. defeated the C.P.R. in three straight games, by over 300 pins. Here are the scores:

Watson .....	145	151	110	—	40
Rowe .....	167	102	156	—	42
Christie .....	131	89	173	—	40
Hicks .....	163	115	165	—	41
McMillan .....	122	137	136	—	39
Totals .....	728	604	750	—	207
C. P. R.—					
Foster .....	119	110	129	—	35
Kent .....	104	119	145	—	26
Jolly .....	94	95	125	—	31
Sissons .....	115	151	118	—	36
Domhle .....	89	125	131	—	31
Totals .....	521	550	648	—	173

# AFTER PLAYING TWO DAYS INMAN HAS SMALL LEAD

Score 1559 to 1527—Hopper  
Loses Session of Eng-  
lish Game.

Winnipeg, Man., Melbourne and England. In the first round, world's easily outpointed Willie Hoppe, world's title holder at the ballyhoo game. In yesterday's play in the International Amateur League, the 27-year-old American won the order, Inman assuming the short end of 1559 to 1577 over the two days. In play here Inman took some time to get his bearings, but he was able to make the finish of both sessions, he managed to get the top of the table and run up the big counts. Hoppe, in the second round, was out of his element, contributing a brilliant 146 break; his highest in the series. Inman has been seen to better advantage at his own game, being better than the rest of the world. His best effort was 377, untied today, in the afternoon and this he carried to 200 in the evening. He finished the series with 625 in the evening, 177, 124 and 45, unfinished. In the afternoon, Inman scored 622 to Hoppe's 338 but the latter could only manage 330 in the evening. 625 is the exact number of figures representing an average on the day's play of 36.7 and 15.5 respectively.

## DEPOSED MANAGER WANTS HIS RELEASE

Charlie Dooin Says he Will  
Quit Baseball Unless Let  
go Outright.

Philadelphia, Nov. 6.—"I'll get my release or I'll quit 123ball."

That is the ultimatum Charlie Doolin, ex-manager of the Phillies, delivered to President William F. Baker, who announced the appointment of Pat Moran to succeed Doolin.

Doolin wasn't forced out of the managerial role, either, but gave up in absolute disgust because of the failure of the owners to give him the necessary financial support to build up a winner.

"I was thirteen years with the Phillies and five years as manager," said Doolin today, "and yet when it came to the matter of my release Baker wouldn't come across and allow me to go. I tried twice to quit but there was nothing doing. Don't think for a minute that I was forced from my position. I wasn't. I quit."

"The main reason why I did not care any longer to continue as manager was the failure of the club owners to support me. They have never given me a cent to buy a ball player with.

"Well, I am glad I'm free of all the worry of being manager anyway," remarked Doolin as he concluded. "I think I would have been a wreck in another year. Why, I have gained eleven pounds since the close of the season. Now I'm going to rest until I start on my vaudeville tour.

"The Boston Braves have made me an offer, but I cannot accept it because I am not a free agent. The Philadelphia club evidently wants to make some money out of my sale and I would have to go to the club they sent me to or quit baseball.

"But I am not situated so that I have to play unless I care to, therefore I won't have to accept any proposition that doesn't look good to me."

**After Mann Cup.**  
The Brampton Lacrosse club, the Ontario team that gave the Vancouver Athletic club such a battle last season for the Mann cup, at present held in Calgary through grace of Joe Lally, is already making preparations for an invasion of the west next spring. Brampton has its 1914 line-up intact and expects to have no difficulty in wrenching the cup from the hands of the Calgary Chinooks.

With the added tax on beer some fellows will try to pay all of the \$100,000,000 themselves.

# "RUBE" OLDRING MAY BE TRADED BY CONNIE MACK

Outfielder Says he is Through  
With Game—Rumor is he  
Will Go.

And now it can be set down indisputably that changes in Connie Mack's Athletics are coming. The line up of 1915 of big "Rube" Oldring, or the veteran Eddie Plank, and some few of their team mates.

Mack must begin and rebuild or share the misfortune of Frank Chance, who allowed a great team to die suddenly upon his hands.

Oldring himself knows that the axe is coming. In fact, he told the Boston rooters that same thing during the world's series. While the Braves were pounding Shawkey in that fatal fifth inning, and the crowd was chaffing the Philadelphia left fielder, Oldring took occasion between safe hits to tell his tormentors that he was nearly done.

"This is my last world's series and my last ball game," said the Rub. "You'll never see me in a uniform again. I'm done with baseball and I'm glad of it. We're up against a great team, but we're going to win. We were not looking for this opposition, and it's proven too much for us."

It can thus be seen that Oldring like the majority of Mack's aggregation who had been a terrible disappointment, in the series, and whose failure to come through with his usual long, hard, honest, and unflinching weaknesses of the Philadelphia attack, had left the unspoken criticism of his mates.

At any rate, Oldring has delivered an alleged ultimatum and in the presence of hundreds of auditors. It may be that Connie Mack has given some hint as to his future plans and that in consequence Oldring intends to anticipate any summary action.

## CIVICS AND CALGARY HIGH SCHOOL BATTLE FOR INTERMEDIATE TITLE

Game Will Be Played in Calgary on Saturday—Will Play Under Scrimmage Rules—Three of Civics Men Will Be Out of Contest, Two of Them Being Ineligible.

Not only will there be a fight on Saturday for the Senior rugby honors of Alberta, when the Calgary Tigers clash with Varsity in this city, but there will also be an exhibition contest, Deacon White's Civics clashing with the Calgary High School in Calgary.

There will be several changes in the division lineup. According to the rules of the A.R.L., no player senior last year is eligible to compete in an interschool game. This will result in the dropping Tommy Dykes and Stearns out of the game and in addition, Mark will not play on account of injuries received in the game with Varsity last Saturday. Notwithstanding the severe handicap the local boys should give strong reason to hope for themselves.

Apparently the high school boys will also be playing under difficulties due to another cause. Coach Joe Price, has thoroughly drilled them in

Two fairly respectable runs of 32 and 28 enabled W. Springer to defeat Archie Kay in the straight rail billiard tourney in the Empire billiard hall last night, the final count standing 18 to 17.

Springer played a fair game but was somewhat outclassed throughout. On nine different occasions he made runs of two figures but they were insufficient to register a win.

Le Richards and Miller.  
Speaking of the game Coach Price says:  
"Having been speeded up to play the snap back all season, it was an easy matter to drop back to the 'cimmage' game. The speed which was found necessary in the snap back will be used to even greater advantage to register a win.  
Tonight King will meet Springer and as they are two of the strongest players in the company the game should be one well worth watching.  
Last night's score:  
Springer, 160; high runs 72-25.  
Kay, 177; high runs, 12-14.  
Referee—C. Organs.

**SEX HYGIENE**  
FOR THE MALE  
By DR. J. B. LYDSTON, M.D.  
Illustrated by  
**CLAYTON**

Every man should have Dr. Lydston's wonderful new life-size book of advice and instruction. The week man will find a lot to do for his health. This small man will get help and suggestions to restore future health. The book will give you the work, it will tell the urgent demand for safe and reliable advice on private subjects. "What To Tell Your Boy" is factually explained in 42 paragraphs. More men are crippled, more lives are ruined, and more boys are wrecked each year thru ignorance of these important facts, than from a general European conflict.

**USE FREE COUPON**

Send your name and address for our 4-page folder giving contents of this book. You will be most interested to learn the serious lessons it teaches. Send this to:
